

Prince Sharma

Frontend Developer

hello@princesharma.dev | +91 98765 43210 | Varanasi, India | github.com/princesharma

Summary

Frontend developer with a strong focus on building clean, fast and accessible web interfaces. Experienced with React, Tailwind CSS and modern JavaScript tooling. Comfortable working across the full frontend lifecycle, from design handoff to shipped, production-ready product. (This is placeholder/dummy content.)

Experience

Frontend Developer — Sample Tech Pvt. Ltd.

Jan 2024 – Present | Remote

- Built and maintained responsive React interfaces used by thousands of users.
- Collaborated with designers to translate Figma mockups into pixel-accurate components.
- Improved page load performance by optimising bundle size and lazy-loading routes.

Junior Web Developer — Sample Studio

Jun 2022 – Dec 2023 | Varanasi, India

- Developed marketing websites using React, Tailwind CSS and Vite.
- Implemented dark/light theming and reusable component libraries.
- Worked directly with clients to gather requirements and iterate on feedback.

Education

B.Tech in Computer Science — Sample University

2018 – 2022

Skills

React • JavaScript (ES6+) • Tailwind CSS • HTML5 / CSS3 • Node.js • Express • PostgreSQL • Git • REST APIs

Projects

Personal Portfolio — React + Vite + Tailwind CSS portfolio site with dark/light theming, a working contact form backed by a Node/Express + PostgreSQL API, and gradient design system.
